Firefighters from multiple organisations working together to battle the widespread veld fires that swept across Thabazimbi on 28 July 2026.

Candles found burning in the veld near the Spitskop–Kwaggasvlakte turn-off on 23 July 2026. The unusual discovery has raised concerns following a number of suspected arson-related veld fires in the Thabazimbi area.

A DAY OF FIRE

Multiple Veld Fires Keep Thabazimbi Emergency Teams Battling for 10 Hours

Platinum Bushvelder newspaper | Thabazimbi

– Tuesday, 28 July 2026, will be remembered as one of the busiest wildfire days Thabazimbi has experienced this winter, with multiple veld fires breaking out across different parts of the town. Firefighters and emergency teams spent nearly 10 hours battling blazes that erupted at several locations, while community members and local farmers joined forces to prevent further devastation. The first fire was reported at approximately 10:00 behind Group 5 in Steenbok Street. While Thaba Fire and Rescue was busy bringing the blaze under control, emergency calls reporting additional fires began flooding into the control room from various parts of Thabazimbi.

As the situation escalated, additional firefighting resources were called in to assist. Teams from the Thabazimbi Water District Fire Team, Amandelbult Fire and Rescue, Northam Platinum Fire Team, Numzaan Safaris, as well as numerous local farmers and community members, worked side by side to contain the fires before they could spread further.

Following the initial fire, additional blazes were reported near the airfield, behind Mediclinic, close to Eskom and in the Heuvelkruin area. Firefighters

moved from one incident to the next throughout the day, eventually bringing the final fire under control shortly before 20:00 that evening. By the morning of Wednesday, 29 July, a thin layer of smoke still hung over parts of Thabazimbi, serving as a reminder of the intense firefighting efforts of the previous day.

According to Pierre Loots, Thaba Fire and Rescue CEO, the pattern of the fires strongly suggests possible arson. He explained that the fires started at locations situated far apart, making it highly unlikely that a single fire could have spread naturally over such distances.

Thaba Fire and Rescue is urging residents to report any fire immediately to its control room by calling 071 622 2702. Anyone with information regarding possible arson is also encouraged to report it without delay.

Residents are further reminded that the fire ban, which came into effect on 1 July 2026, remains in force. Strict adherence to the ban is essential to help prevent further veld fires, protect property and safeguard lives.

Firefighters battle a veld fire near the Thabazimbi airfield on 26 July 2026, highlighting the ongoing wildfire threat in the area.

Update at the time of going to print: On Wednesday, 29 July, firefighters were once again called out to several veld fires. Incidents were reported in Group 5 (Steenbok Street area), along the Marakele Road, and behind the Thabazimbi airfield. Thaba Solar also joined the firefighting efforts, assisting emergency teams as they continued to battle the ongoing wildfire threat across the area.

A new authorisation system will allow registered South African farmers to vaccinate their own livestock against Foot-and-Mouth Disease, helping to speed up disease control while maintaining strict reporting and traceability requirements.

FARMERS GIVEN MORE CONTROL in the fight against Foot-and-Mouth Disease

Platinum Bushvelder newspaper | Limpopo – South African livestock farmers will soon have greater control over protecting their animals against Foot-and-Mouth Disease (FMD), following the introduction of a new authorisation system announced by minister of Agriculture, Willie Aucamp. The new system allows farmers to apply to become authorised vaccinators, enabling them to vaccinate their own livestock instead of relying solely on state veterinary officials. The move follows years of devastating FMD outbreaks that disrupted livestock movement, affected meat exports and caused significant financial losses across the agricultural sector. Under the new process, farmers must first register through an official online system to become authorised vaccinators. They are then required to notify the authorities at least five days before administering vaccinations and submit a vaccination report within 14 days after the animals have been vaccinated. The Department of Agriculture says these measures will ensure that every vaccination is properly recorded, helping authorities monitor disease control while giving farmers the flexibility to act more quickly when needed. Although commercial farmers will be responsible for purchasing their own vaccines, government has confirmed it will continue supplying vaccines to farmers in outbreak areas and to those who cannot afford them. The new system is expected to strengthen South Africa's ability to respond to Foot-and-Mouth Disease outbreaks by combining faster action on farms with continued government oversight and strict traceability. Foot-and-Mouth Disease is a highly contagious viral disease affecting cloven-hoofed animals, including cattle, sheep, goats and pigs. While it rarely poses a direct threat to humans, outbreaks can have severe economic consequences for farmers and the livestock industry.

- **AIM:** To ensure driver safety during road construction, maintain awareness of your surroundings, obey posted signs, and follow traffic regulations to navigate safely through work zones.

GOLDEN ROAD CONSTRUCTION RULE!! NO VEHICLE IS ALLOWED TO SKIP STOP AND GO

1. **Stay Alert and Reduce Speed:** Always be on the lookout for **construction signs and workers**. **Reduce your speed** as you approach construction zones, as **speed limits are often lower in these areas**.
2. **Follow Traffic Signs and Flaggers:** Pay attention to all posted signs and instructions from flaggers. Their directions take precedence over standard traffic signals and are crucial for maintaining safety in the work zone
3. **Maintain a Safe Following Distance:** Keep a safe distance from the vehicle in front of you. Sudden stops are common in construction zones, and maintaining a buffer can help prevent rear-end collisions
4. **Be Aware of Changing Conditions:** Construction zones can have unexpected obstacles, lane shifts, and changes in traffic patterns. Stay vigilant and be prepared to adapt your driving to these changes
5. **Avoid Distractions:** Stay focused on the road and avoid using electronic devices while driving through construction zones. Distractions can lead to accidents especially in areas where conditions can change rapidly
6. **Use Defensive Driving Techniques:** Anticipate potential hazards and adjust your driving accordingly. This includes slowing down in adverse conditions, such as wet roads or reduced visibility, and being cautious when approaching curves
7. **Respect Construction Equipment and Workers:** Be mindful of construction vehicles and workers on foot. Avoid driving over cones, barrels, or other traffic control devices, as this can cause accidents and damage.

By following these safety tips, drivers can significantly reduce the risk of accidents and ensure a safer environment for both drivers and construction workers. Always prioritize safety and remain patient when navigating through road construction zones.

EVERY SAFETY RULE IS WRITTEN IN SOMEONE'S STORY... South Africa's mining safety rules are often strengthened after real-life incidents and hard-earned lessons. While the industry has made remarkable progress – reducing annual mine fatalities by more than 90% since the 1990s – every loss remains one too many.

So far in 2026, the Department of Mineral and Petroleum Resources has recorded 33 mine fatalities, prompting renewed calls for every employee to follow safety procedures, identify hazards and stop unsafe work. In mining, every rule exists for one reason: to help ensure everyone returns home safely.

- Waterberg 1st Team:** Won 36-14
- Waterberg 2nd Team:** Won 38-12

The clean sweep reflects the hard work and commitment of the players, coaches and support staff, while also highlighting the club's growing strength across all divisions. Five victories from five matches made for a perfect day at Bushveld Park and gave supporters plenty to celebrate.

Frikkie Meyer se o.15's triomfeer in Limpopo-finaal

Platinum Bushvelder koerant | Thabazimbi – Hoërskool Frikkie Meyer se o.15-rugbyspan het hul wintersportseisoen op 'n hoogtepunt afgesluit deur die Limpopo-rugbyfinaal teen Hoërskool Nylstroom te wen en as kampioene gekroon te word. Die titel is die beloning vir maande se harde werk,

spanwerk en toewyding. Die skool het die spelers, afrigters, ouers en almal wat tot die span se sukses bygedra het, gelukkigwens met dié besondere prestasie. As trotse borg het Afri Readymix die span ook gelukkigwens en hulle aangemoedig om met dieselfde passie, dissipline en trots voort te bou op hul sukses.

Die trotse Hoërskool Frikkie Meyer o.15-rugbyspan vier hul welverdiende oorwinning nadat hulle Hoërskool Nylstroom geklop het om as Limpopo-rugbykampioene gekroon te word. Baie geluk aan die spelers, afrigters en ondersteuners met hierdie besondere prestasie.
