

‘GREEN BINS’ INITIATIVE EXTENDS TO NORTHAM

Northam – Thabazimbi Local Municipality (TLM)’s ‘Green Bins’ initiative is taking the community by storm. Distribution of dustbins commenced on Friday 31 January and has now reached the Northam community. Through this programme, TLM aims to achieve a clean and green environment. The municipality is reaching out to all businesses operating within its jurisdiction to assist in the widespread waste challenge facing our towns. They are distributing refuse bins to owners of business for public use.

Green dustbins being distributed throughout Northam.

NRPA WORRIED BY MUNICIPALITY’S CHALLENGES

Thabazimbi – The sewage in Northam has been a thorn in the side of community members. After a request from the Northam Rate Payers Association (NRPA), the Thabazimbi Local Municipality (TLM) sent a health inspector, environmental inspector and the roads and stormwater manager to Northam on Friday 31 January to report on the problems facing Northam. They were also accompanied by a human rights representative.

Their trip included visiting the Northam sewage plant as well as speaking to business owners who are severely affected by the sewage problem. They also urged hawkers not to litter by highlighting the environmental dangers of such practices for Northam. The NRPA is pushing the TLM to release the report so that they can start with the next step to improve Northam. The TLM has not yet released the report.

TLM environmental officer Nomfundo Mthethwa, NRPA member Butch Anley and TLM roads and stormwater manager Lesego Modisenyane.

The vital role players in the effort to create a better Northam.

TLM AND ARCELORMITTAL CLEAN UP LANDFILL SITE

Thabazimbi – The Thabazimbi landfill site has become more than just an eyesore for the residents of Thabazimbi. After the overflow of garbage started to affect the Dwaalboom road, the Thabazimbi Local Municipality (TLM) had to find a quick and effective short-term solution. On Saturday 8 February TLM in partnership with ArcelorMittal Thabazimbi rolled up their sleeves to maintain and manage the landfill site. This collaboration is only the beginning of a coordinated effort to find a sustainable solution for waste management in Thabazimbi. TLM extended their gratitude towards ArcelorMittal for their good gesture and assistance. They also conveyed an apology to the residents and business owners for the inconvenience caused.

The overflowing landfill site looked much better after the cleanup.
