

MISSING GIRL’S DISMEMBERED BODY DISCOVERED IN DAM

Northam – The dismembered body of an 11-year old girl was found dumped in Klein Letaba Dam near Giyani on Tuesday 17 March.

Police are considering the possibility that Tiyiselani Nokuthula Rokhotso, who had been reported missing a day before her body was discovered, could have been murdered for ritual purposes.

“The motive for this murder is unknown at this stage but ritual murder cannot be ruled out,” police spokesperson brigadier Motlafela Mojaelo said.

The discovery was made by community members who alerted police to the scene. While retrieving the body, police noticed that some of the body parts were missing. Limpopo provincial police commissioner lieutenant general Nneke Ledwaba strongly condemned the brutal killing of this innocent child while giving a directive for her suspected

murderers to be tracked down and arrested. **Anyone with information that can lead to the arrest of the suspects is requested to contact colonel Chris Mabasa on 082 469 0739 or the Crime Stop number 086 001 0111.**

The late Tiyiselani Nokuthula Rokhotso is sorely missed.

FIDELITY ADT WARNS OF SCAM IN WAKE OF COVID-19 PANDEMIC

South Africa – Fidelity ADT has issued a warning to residents after reports about impersonators trying to access residential homes claiming to be government officials or medical practitioners doing COVID-19 home testing
Fidelity ADT national marketing and communications manager Charnel Hattingh, says there have been a couple of reports from customers about impersonators trying their luck at the moment. “It is important to never let anyone in your property if their identity or reason for the visit has not been verified. Impersonators can pretend to be electricians, telephone repairmen, garden service employees, or even security and police officers,” says Hattingh.
“We have been advised there is no door to door testing so please do not let anyone in claiming to be from the government or one of the medical services,” says Hattingh. Homeowners must take certain precautions, to not let their guard down and be taken in by such scams and ‘con artists’. Any employees who work on your property should also be fully briefed and warned not to give access to any strangers. “If you do get someone claiming to be checking, rather alert your security provider who can then respond accordingly,” she says.
“If you are expecting other contractors or deliveries please ensure you brief your staff ahead of time,” she says.
Domestic employees play an integral part in any home security system and it is critical that they are empowered and equipped to look after their safety, as well as the safety of anyone else on the property such as children they may be looking after.
It is always a good idea to trust your gut and to err on the side of caution.
“If you feel something is out of place, report it to the police or your security provider immediately. No one should be allowed to enter unless they can prove their identity and their *bona fides* for visiting the property.”
Fidelity ADT press release, 16 March 2020.

Charnel Hattingh.

NETCARE WARNS THE PUBLIC TO BE VIGILANT

South Africa – Netcare has been made aware that criminals are going to homes in various areas, claiming to be from Netcare or Netcare 911, and saying that they are assisting the Department of Health with door-to-door screening for COVID-19 (coronavirus). Please note that staff members from the Netcare Group, including from Netcare hospitals, Netcare 911 or Medicross medical and dental centres, are **not** doing door-to-door COVID-19 screening. Should someone claiming to be a representative from Netcare, Netcare 911 or Medicross arrive at your home or business premises claiming to do screening for the novel coronavirus, do not allow them onto your property or inside your business premises for your safety but please alert the police immediately.
Netcare press release, 16 March 2020.
