

THABAZIMBI'S WARRIORS FIGHTING COVID-19

Thabazimbi – Since the start of the lockdown on Friday 27 March, the Thabazimbi Local Municipality's COVID-19 local command council, together with law enforcement, conducted daily briefings. During their morning meetings, attendees put heads together to find ways to assist the community in the fight against COVID-19. This task team also monitors and ensures that people adhere to the national lockdown rules. During their assessments, they check that people wear masks, have the required permits and keep to the social distancing regulations. They are committed to serve the community and have a zero-tolerance policy for anyone who's not compliant.

FOUR DIE IN HEAD-ON COLLISION

Rust de Winter – Police in Rust de Winter under the Bela Bela Cluster have opened a case of culpable homicide after four people died in a head-on collision. The accident occurred on Saturday 6 June along the Moloto and Rust de Winter crossroads. According to police spokesperson brigadier Motlafela Mojapelo, the driver of a white Opel Monza with four occupants collided head-on with a bus. Everyone in the Opel died on scene while the driver of the bus and his passengers were unharmed.

LIONS SAVED THANKS TO THE NSPCA – CAPTIVE LIONS IN DEPLORABLE CONDITIONS RELOCATED

Limpopo – Earlier this month, the National Council of SPCAs (NSPCA) Wildlife Protection Unit investigated two captive lion facilities, owned by the same person, in All Days Limpopo after receiving a complaint about severely underweight lions. The NSPCA inspectors found deplorable conditions – underweight lions, lack of adequate shelter, lack of veterinary treatment, as well as unhygienic and small enclosures. Following the warnings issued and impending charges by the NSPCA, Palala Game Farms offered these lions and other animals held captive at these facilities, a new home. Although this facility is not a sanctuary, the NSPCA, not being the owners of the animals, could not dictate where the lions should be relocated to. However, the condition at this facility is a vast improvement in comparison to the dismal conditions that these creatures were living in – with 24-hour access to veterinary care, security, clean water,

and ample access to food and shelter, the NSPCA is confident that these lions will be properly looked after. The NSPCA Wildlife Protection Unit has been intrinsically involved in the translocation of the animals, from planning meetings with the relevant representatives from the Limpopo Department of Economic Development, Environment and Tourism (LEDET) and Palala Game Farms, to monitoring the darting, handling and transport of the lions, as well as the offloading at the new facility. The NSPCA will undertake future inspections at the facility to ensure consistency in the care as promised. We are sure that this is the beginning of a cooperative and fruitful relationship with LEDET to ensure that animal welfare and conservation remain an intertwined set of values in this province. The NSPCA remains opposed to the keeping of wild animals in captivity.

NSPCA press release, 26 May 2020

WINSKOOP VAN DIE JAAR
