PSALM 27

1The LORD is my light and my salvation; Whom shall I fear? The LORD is the strength of my life; Of whom shall I be afraid?

2When the wicked came against me To eat up my flesh, My enemies and foes, They stumbled and fell.

3Though an army may encamp against me, My heart shall not fear; Though war may rise against me, In this I will be confident.

4One thing I have desired of the LORD, That will I seek: That I may dwell in the house of the LORD All the days of my life, To behold the beauty of the LORD, And to inquire in His temple.

5For in the time of trouble He shall hide me in His pavilion; In the secret place of His tabernacle He shall hide me; He shall set me high upon a rock.

6And now my head shall be lifted up above my enemies all around me; Therefore I will offer sacrifices of joy in His tabernacle; I will sing, yes, I will sing praises to the LORD.

7Hear, O LORD, when I cry with my voice! Have mercy also upon me, and answer me.

8When You said, "Seek My face," My heart said to You, "Your face, LORD, I will seek."

9Do not hide Your face from me; Do not turn Your servant away in anger;

You have been my help; Do not leave me nor forsake me, O God of my salvation.

TAR NEEDS YOUR HELP

Thabazimbi – Thabazimbi Animal Rescue (TAR) has an urgent need for pet food. The facility is filled with animals that need your help. TAR is currently using their very last resources to provide for these animals. Without donations, they will not be able to feed, home and/or medically treat the animals in their care.

For more information contact TAR on 084 885 6487.

STAYING WARM COMES AT A PRICE

Thabazimbi – A hot cup of coffee, a heater and an electric blanket all bring comfort during the cold winter months. Unfortunately, these comforts also accompany an increase in electricity usage.

If you see that your units are dropping faster than before, keep the following culprits in mind:

- Geysers take longer to heat up.
- During the lockdown, more people are working from home. The youngsters are also stuck at home and this means more people using more devices... using more electricity.
- Heaters... kettles or anything with an element that creates heat.
- A pressure pump can also make up a big chunk of your electricity usage as people tend to take longer showers in wintertime.
- Keeping your swimming pool clean will also contribute to an increase in electricity usage.

Make sure that all the appliances in your home is in a proper working condition and switch off appliances when you are not using them. When you do switch on your heater, heat only the room you are in. Remember to close all the doors and windows while the electric heater is on. Boil only enough water in the kettle for the number of cups of hot drinks you are preparing. By limiting your pool's filtering to once every 24 hours during winter, you could contribute to a notable saving on the energy required to run your pool pump. Small changes can make a big difference in a big electricity bill.
