# Spilling the beans

**Thabazimbi** – A tyre that burst while a truck was travelling along the R511 near Thabazimbi resulted in a spillage of several tonnes of dry soya beans.

The incident occurred on Tuesday 5 April at around 8pm, 24km from Thabazimbi, as the truck was travelling from Makoppa towards

Brits. A soya bean trail of about 250 metres can clearly be seen from an aerial photograph taken of the incident.

Said Thaba Fire and Rescue founder Pierre Loots: "One of the truck's tyres burst and it damaged the hydraulic cylinders that opens and closes the gates/doors of the tipper. The

tipper gates/doors opened, resulting in the spillage."

With low visibility at that time in the area, the truck was parked next to the road and the clean-up started.

Traffic officers from Thabazimbi Local Municipality (TLM) regulated traffic while a

coordinated effort to remove the soya beans from the road was underway. Volunteers of Thaba Fire and Rescue, Koedoeskop community policing forum and farmers in the area joined hands to clear the road.

They were behind brooms for several hours to clear the road.

In remembrance

The Northam and Setaria community mourn the passing away of Aphiwe Mahlati on Sunday 3 April. Mahlati was only 29 years old and played in prop position for the Northam Rhinos. Northam Rhinos club chairperson Flip de Kock described him as reliable – on and off the field. “He was the type of person who always gave 100% and always had a joke lined up.” He will not only be missed as a great rugby player and team member but also for the fantastic person that he was. This gentle giant left footprints in the hearts of everyone that had the privilege of knowing him. This is a great loss for his family, friends, teammates and community. We extend our sincerest condolences to his family, friends, colleagues and rugby family.

### PSALM 8

The Glory of the Lord in Creation  
To the Chief Musician. On the instrument of Gath. A Psalm of David.

8 O Lord, our Lord,  
How excellent is Your name in all the earth,  
Who have set Your glory above the heavens!  
2 Out of the mouth of babes and nursing infants  
You have ordained strength,  
Because of Your enemies,  
That You may silence the enemy and the avenger. 3 When I consider Your heavens,  
the work of Your fingers,  
The moon and the stars, which You have ordained,  
4 What is man that You are mindful of him,  
And the son of man that You visit him? 5 For You have made him a little lower than the angels,  
And You have crowned him with glory and honor. 6 You have made him to have dominion over the works of Your hands;  
You have put all things under his feet,  
7 All sheep and oxen—  
Even the beasts of the field,  
8 The birds of the air,  
And the fish of the sea  
That pass through the paths of the seas. 9 O Lord, our Lord,  
How excellent is Your name in all the earth!

### Do you think Will Smith had the right to slap Chris Rock?

A joke is not a joke if it is at the expense of someone else, but even if we don't want to admit it, sometimes it's still funny. Violence is never the answer, but what if you did it in the heat of the moment because you defended someone you love? Make yourself heard by sending an email to [news@platinumbushvelder.co.za](mailto:news@platinumbushvelder.co.za) or a WhatsApp to 081 579 7000 with the following information before 17:00 on Tuesday 12 April:

## “Spotted” hyena spotted?

**Thabazimbi** – Madelein Laubscher, a new resident of Thabazimbi, spotted a hyena on the Marakele Road just outside Thabazimbi on Thursday 24 March.

“It was crossing the road near Komma Nader Guest House and Kransberg Eco Park just past 6pm,” she said.

*Platinum Bushvelder* spoke to Marakele National Park's conservation manager Tshifhiwa Mauda.

“Hyenas are roaming animals and are commonly seen in our area on farms and parks. We regularly receive messages of hyena sightings.

#### Did you know?

The most commonly found hyena in South Africa is the spotted hyena. The brown hyena (*Hyaena brunnea*) is described as the smaller and even shyer hyena.

This hyena is often misunderstood. They are gentle and have strong kin bonds. Their reputation amongst farmers is often that of ‘a livestock predator’. But they face a battle of survival.

Brown hyenas are also known as “strandwolves”— an Afrikaans word which directly translates to “beach wolves” in English. This is in reference to the hyena's habit of taking strolls along the beach in search of food. It is estimated that 33% of the adult brown hyena population is nomadic, of which the majority are males.

But mostly, hyenas live at dens. The communal den represents a meeting point for clan members to come together to socialise, and also the place where the clan jointly raises the cubs.

Brown hyenas are primarily a scavenging species and can walk up to 40 km per night in search of food. They are inefficient predators and food obtained by hunting is rare. Although often undervalued and maligned, brown hyenas play an essential role as the ‘cleaners’ of the ecosystem; removing carcasses and carrion which might become sources for the spread of disease. Their populations continue to decline as a result of intense persecution, and this shy and elusive species will only continue to persist where their presence is tolerated, and their ecology understood.
