Life can change in an instant

Thabazimbi – To warn other road users, a Thabazimbi community member shared this terrifying incident, which could have turned out much worse.

“I was driving past a day-care centre in Van Der Bijl Street on Tuesday 21 June [shortly before 3pm]. I often take that route and because I know that there are usually children walking next to the road in that area, I was driving at a snail's pace of about 20km/h [or slower] and not the permitted 60km/h.

“I noticed five children walking and playing next to the road when suddenly... a boy (aged about 12 or 13) pushed a much smaller child (about 4 or 5 years old) right in front of my car. I had no chance to react, other than just to slam on the brakes. I saw the red hoodie of the child disappearing in front of my car's bonnet.

“It felt as if my stomach dropped to the ground, and I prayed out loud as I got out of the car. Just then the kid jumped up and ran back to the boy who pushed him,

pushing him back. I started crying and shaking from shock.

“I tried to talk to the children, but they could not understand me. I know that everyone's circumstances differ and that the parents of this little boy might not have any other option than to let their little boy walk home with other children... But from one mother to another I am BEGGING you to please teach your children about road safety. I do not want to think of what could have happened.”

On average, 650 children aged 0 to 9 die on South Africa's roads every year. And for every child that dies on the roads, about 45 children are hospitalised.

If a driver does knock a pedestrian or cyclist, the normal duties of a driver in event of accident as provided by Section 61 of the Act apply: The driver must immediately stop the vehicle and report the accident. Where a person is killed or injured it must be reported within 24-hours after the occurrence of the accident or in any other case on the first working day after the occurrence of such accident.

PROTECT YOUR PET

Thabazimbi – The canine parvovirus (CPV), commonly known as 'katgriep', is a highly contagious virus and is every puppy owner's worst nightmare.

If a dog gets infected, it will develop symptoms like vomiting and diarrhoea which often results in dehydration. It weakens the puppy's immune system that can lead to secondary infections. A rapid test can be done to determine if a puppy is infected.

Vaccinating your pet against parvo does not only help to prevent a puppy from catching it, but it also helps to

prevent the spread. Puppies can be vaccinated from as young as four weeks and must go for three follow-up vaccinations. Vaccinations also help to fight other canine diseases like rabies and distemper.

Kransberg Direkliniek vet doctor Mari Naude urges all pet owners to make sure that their pet's vaccinations are up to date. "This plays a vital role in keeping your pets healthy and without disease," she said.

Call Kransberg Direkliniek on 064 518 3814 or 066 214 5514 to book an appointment for your pet's vaccination.

PSALM 26

A Prayer for Divine Scrutiny and Redemption
A Psalm of David.

26 Vindicate me, O Lord, For I have walked in my integrity. I have also trusted in the Lord; I shall not slip. 2 Examine me, O Lord, and [a]prove me; Try my mind and my heart. 3 For Your loving kindness is before my eyes, And I have walked in Your truth. 4 I have not sat with idolatrous mortals, Nor will I go in with hypocrites. 5 I have hated the assembly of evildoers, And will not sit with the wicked. 6 I will wash my hands in innocence; So I will go about Your altar, O Lord, 7 That I may proclaim with the voice of thanksgiving, And tell of all Your wondrous works. 8 Lord, I have loved the habitation of Your house, And the place [b]where Your glory dwells. 9 Do not gather my soul with sinners, Nor my life with bloodthirsty men, 10 In whose hands is a sinister scheme, And whose right hand is full of bribes. 11 But as for me, I will walk in my integrity; Redeem me and be merciful to me. 12 My foot stands in an even place; In the congregations I will bless the Lord.

Do you know how Bitcoin works?

Bitcoin is a form of digital cash that eliminates the need for central authorities such as banks or governments. Instead, Bitcoin uses a peer-to-peer internet network to confirm purchases directly between users. Do you understand how this works or is this Greek to you?

No, I've never heard of it.
Sarah Nkgwe

No, I've heard of Bitcoin, but I have no idea how it works.
