COLLISION CAUSES A CHAIN REACTION

Thabazimbi – Two trucks, a road safety vehicle, and a Honda collided on the R510, near the Krokidilriver bridge on Wednesday 18 January 2023.

A chain reaction was set into motion when one truck crashed into another, which consequently hit a road safety vehicle, which then crashed into a Honda.

Two people sustained injuries and had to be transported to hospital for further treatment. One of the injured persons was a traffic officer, while the other was a truck driver who was transporting JoJo tanks with a trailer. Traffic came to a standstill due to the accident and Community Policing Forum (CPF) members, along with Dinare Security, and Thabazimbi Fire and Rescue (TFR) were deployed to assist with regulating the traffic. The line of traffic stretched for approximately three kilometres with motorists who waited to pass.

Hot as hell

Thabazimbi – With temperatures expected to reach a high of 36°C on Saturday 28 January and 37°C on Sunday 29 January, *Platinum Bushvelder* caught up with those in the know to share a word of caution with our communities.

There was a sharp rise in temperatures in various parts of the country during the last couple of weeks. The very sad account of seven heatstroke related deaths in Kakamas in the Northern Cape on Sunday 22 January was a reality check for the rest of us.

In an interview with Thabazimbi Local Municipality's Disaster Management manager, Gerrie Visagie said: "The iron mountains in our area have a direct impact on our temperatures. The Ysterberg mountain, which is heavily laden in iron, absorbs the treacherous heat. That is why it's even hot after sunset."

Thabazimbi is situated at the feet of the Ysterberg and is surrounded by the Witfonteinrand and Boshofberg with the majestic Kransberg in the background.

Heatstroke is a result of prolonged exposure to high temperatures, especially during physical activities. Trauma Rescue's industrial operations manager, Rayno Dempers says: "Heatstroke is serious. It occurs when the body can no longer control its temperature. The body temperature rises rapidly when its ability to sweat fails, meaning that the body is unable to cool down."

"Watch out for the following warning signs of heatstroke," Dempers says:

- A fever above 40°C
- Severe headache
- Extreme exhaustion
- Confusion or agitation
- Rapid heart rate of above 100 beats per minute (bpm)
- Convulsions or loss of consciousness
- Dizziness

- Rapid shallow breathing
- Nausea and vomiting
- Loss of appetite
- Warm, dry skin with no sweating

What to do if someone has a heatstroke:

- Most importantly, call for an ambulance!
- Move the person to a cool, preferably air-conditioned environment, or at least a cool shady area.
- Remove unnecessary clothing.
- Use a wet cloth or sponge and wipe the person's body down.
- Apply ice packs under the armpits, groin, neck, and back.
- If possible, place the person in a cool bath or shower.
- If the person is awake and aware of his/her surroundings, start rehydrating the patient.
- If the person starts to convulse [suffer violent involuntary contraction of the muscles, producing contortion of the body or limbs], do not restrain him/her. Turn him/her on their side. Do not put foreign

objects in the mouth—you will cause more damage.

- If the person becomes unconscious, turn the person into the recovery position. [a position used in first aid to prevent choking, in which the body is placed facing downwards and slightly to the side, supported by the bent limbs (foetal position)].
- Ensure that the patient is still breathing and has a pulse. If the breathing or pulse is absent start CPR.
- Only start CPR if you are knowledgeable on the matter; understand that you will have to continue CPR until an emergency responder is able to take over.

Platinum Bushvelder's advice to our community members is simple: Keep hydrated and avoid unnecessary physical activities during high temperatures. Also make sure that your pets have shade and a decent supply of water—especially if you are not at home during the day.

Sarah's caring calling

Thabazimbi – Sarah Mawe has been caring for the old and frail since 1996. In an interview with *Platinum Bushvelder*, Sarah said that she recognised the need of the elderly who lived alone and had no one to take care of them, feed them, and help them with their medication. This moved Sarah to assemble a team of 20 volunteers who would assist the elderly around the Thabazimbi community.

In 2005, Sarah registered the Thabazimbi Community Based Organisation (TCBO) as a non-profit organisation (NPO) at the Department of Social Development and has since been living her calling as a caregiver.

As of date, TCBO has extended to caring for more than just the elderly and currently consists of 27 team members—all of which are volunteers—who help in areas such as auxiliary social work, childcare at Smashblock, and home-based care workers who give aid around the Skierlik and Thabazimbi areas.

TCBO's auxiliary social workers work with social behaviour change, the childcare workers work with orphans and vulnerable children, and the home-based care workers assist the elderly by preparing their food, cleaning their homes, feeding them, getting and administering their medication, and helping them with any other basic or special needs.

TCBO helps those in need at no charge. If you know of anyone who would need any of the above-mentioned assistance, please contact **Sarah at 071 922 8492 or 072 729 2567.**

As TCBO is a non-profit organisation, it is always in need of volunteers, and donations such as transport aid, food, clothing, and toys. If you are able to help,

Sarah Mawe has been caring for those in need for more than 26 years.

please contact Sarah or visit TCBO's drop zones at Regorogile Shai Drive, Stand 119, or 11 Jourdan Street in Thabazimbi.

PROTEST ON R510 CAUSES DAMAGE TO VEHICLES

Sandfontein/ Northam – Community members brought traffic to a standstill on the R510 in the Sandfontein area approximately 30km from Northam on Thursday 19 January 2023.

According to North West police spokesperson colonel Adèle Myburgh, the Mogwase Police was called out to the scene where they found the road blocked off.

There were also reports of protestors throwing rocks at cars who were caught in the crossfire.

Protestors blocked off the road preventing motorists from crossing.

Still off the beaten track

Northam – More than a year ago, a train derailed between Amandelbult and Thabazimbi on Tuesday 27 July 2021.

Platinum Bushvelder reported that emergency services rushed to the scene where they found the cargo carriers scattered along the track. I was traveling along that road on 20 January 2023, and nothing has changed since the 2021 incident. The cargo carriers are still scattered along the track, and the area looks exactly the same as the photo that was featured in the newspaper—except the grass might be a bit greener. Why is nobody doing anything about it, or is this just now part of the ‘majestic bushveld landscape’?

The Time Traveller

This photo that was published in *Platinum Bushvelder* in 2021 after the incident. The picture still looks the same – the grass is just greener!

Have your say / Sê jou sê Do you kill spiders?

Spiders play a very important role in our ecosystem. They catch bugs like flies and mosquitos, and because of this, many people consider them to be welcome visitors at home. But for some, it can be a nerve-racking experience to have them around. So, what do you do when you come across one?

No. I don't kill spiders. I would rather take them out of the house.

Cheraldine Smit

No. I don't kill spiders. Instead, I take them outside and release them into nature.

PSALM 126

A Joyful Return to Zion, A Song of Ascents.

When the Lord brought back the captivity of Zion, We were like those who dream.

2 Then our mouth was filled with laughter, And our tongue with singing. Then they said among the nations, "The Lord has done great things for them."

3 The Lord has done great things for us, And we are glad.

4 Bring back our captivity, O Lord, As the streams in the South.

5 Those who sow in tears Shall reap in joy.

6 He who continually goes forth weeping, Bearing seed for sowing, Shall doubtless come again with rejoicing, Bringing his sheaves with him.

YOUR FRIDAY FUN FACT

Did you know?

It took at least four decades to complete the Oxford English Dictionary. In 1879 the Philological Society of London made an agreement with the Oxford University Press and James A. H. Murray to begin work on a new English Dictionary. They estimated that it would take about 10 years to complete. However, it took the writers five years just to reach the word 'ant'.
