GET INVOLVED TO SAVE OUR RHINOS

The incident underscores the persistent threat to the rhino population in South Africa. Photo credit: Tom Rowland.

Rooiberg - In a distressing incident that highlights the ongoing threat to South Africa's rhino population, the Rooiberg police have launched a manhunt for unknown suspects following the poaching of two rhinos on Monday 30 October 2023 at Pomo Estate in the Waterberg District.

The owner of the estate last saw his rhinos on Sunday 29 October at approximately 09:20 in the morning, and

nothing appeared out of place. However, the situation took a tragic turn the following day when the owner received a call from his employee at about 09:35. The employee reported discovering suspicious footprints on the farm. Upon further investigation, they found that no fences had been cut, but upon reaching the rhino camp, they made a gruesome discovery - two rhinos had been shot and killed, and their horns brutally removed. Authorities are currently conducting a thorough investigation into the circumstances surrounding the incident. A case docket for rhino poaching has been allocated to the Stock Theft and Endangered Species Unit for further handling. The police are urging anyone with information that could assist in the arrest of the suspects to contact the investigating officer, detective warrant officer Jurg Van Heerden, on 082 414 2337 or Crime Stop on 086 001 0111. Alternatively, you can report information to the nearest police station or share it anonymously on the MySAPS app. The incident underscores the persistent threat to rhino

populations in South Africa. According to figures released on 1 August this year, a total of 231 rhinos were poached in the country between January and June 2023. Rhino horn continues to be in demand in some eastern countries, where it is used in traditional medicine and as a status symbol to display success and wealth. There is also a belief in its supposed medicinal value, including aphrodisiacal properties, despite a lack of scientific evidence to support these claims. Dr. Jo Shaw, CEO of Save the Rhino International, emphasised the importance of collaboration in addressing this crisis. "Collaboration across communities, sectors, and borders is critical," said Shaw. "We've got to build strong alliances that can proactively deter people from poaching, as well as enable thorough investigations and secure convictions after poaching".

The incident serves as a stark reminder of the urgent need to protect these magnificent creatures and the importance of international efforts to combat the illegal trade in rhino horn. To get involved, visit www.savetherhino.org

Platinum Bushvelder published this image of one of the two rhinos recently killed for its horns, although graphic, it serves as a reminder of the severity of the current rhino poaching situation.

POSTPONEMENT OF CASE INVOLVING CHILD ABUSERS

Thabazimbi – The trial involving the three suspects, a man and two women, who are facing allegations of child sexual assault, child neglect, and assault with the intent to cause serious bodily harm, has once more been postponed until Tuesday 16 January 2024. This follows their appearance before the Thabazimbi Regional Court on 2 November. Initially apprehended on 26 January 2023, the man and the two women were taken into custody when it was revealed that a child had been subjected to sexual assault, and two children had been brutally attacked using a cricket bat.

On 8 February, the two women were granted bail of R1,000 each, while the man was released on bail of R2,000 for the initial charges. However, he remained incarcerated after an additional charge of sexual assault was levied against him. On 13 March 2023, he was granted release on bail of R2,000 for the first charge and R500 for the second charge.

The case has yet **again** been postponed.

WATERBERG DISTRICT FLYING SQUAD NABS SUSPECT IN WATER TANKER TRUCK THEFT CASE

Waterberg - The members of the Waterberg District Flying Squad apprehended a male suspect for the theft of a water tanker truck on Wednesday, 1st November 2023.

The police were conducting crime prevention duties when they received information regarding a white Tata truck that had been stolen in the Lephalale policing area and was reportedly on its way to Mokopane while traveling along the N11 public road.

The members swiftly responded and managed to spot the truck fitting the description, pulling it over. The driver was asked about the legal ownership of the truck, but he failed to provide a satisfactory response and was immediately apprehended on the spot for being in possession of a suspected stolen motor vehicle.

“Johannes Lucas Msiza (39) appeared on 2nd November before the Mokopane Magistrates’ Court. His case was postponed to 9th November for further bail applications,” said police spokesperson brigadier Hlulani Mashaba.

1 Corinthians 14

Prophecy and Tongues

14 Pursue love, and desire spiritual gifts, but especially that you may prophesy. 2 For he who speaks in a tongue does not speak to men but to God, for no one understands him; however, in the spirit he speaks mysteries. 3 But he who prophesies speaks edification and exhortation and comfort to men. 4 He who speaks in a tongue edifies himself,

but he who prophesies edifies the church. 5 I wish you all spoke with tongues, but even more that you prophesied; for he who prophesies is greater than he who speaks with tongues, unless indeed he interprets, that the church may receive edification.

Are you a fan of energy drinks?

People often turn to energy drinks for a quick boost of alertness and energy. These beverages typically contain caffeine, sugar, and other stimulants that can provide a temporary increase in mental alertness and physical energy. But others see another side of the coin...

Yes. I like energy drinks because I work in retail, and I gym every morning at 05:00, and I do karate in the afternoons.

Thabang Maboke

Yes, but not every day, only every now and then because of the extra vitamins and for an energy boost.

Thabazimbi Feed the Poor receives generous donations

Thabazimbi – On Friday, 27 October 2023, Thabazimbi Feed the Poor reached a significant milestone in its mission to provide food and clothing to those in need, particularly children facing difficult circumstances. These children often bear the brunt of their families' financial struggles. Since its establishment in 2011, this non-profit organisation (NPO) has encountered numerous challenges in fulfilling its noble mission. One of the most formidable hurdles was the necessity to cook meals for children on an open, scorching fire. In the blazing heat of the bushveld, midday can be particularly unforgiving, not to mention the copious amounts of wood required to keep the fire going. Managing large 50-litre pots over open flames proved to be a strenuous task, requiring great care to ensure that food did not burn. This has been a 12-year-long struggle that only those directly involved can truly comprehend. Additionally, the estimated 150 children and orphans who depend on the NPO for their daily meals had to sit on the ground while eating. The lack of tables and chairs meant that accidents, such as a child accidentally kicking sand into another's plate, were not uncommon. These young souls had no choice but to consume their meals, sand and all, without the possibility of a second helping. The prospect of acquiring tables and chairs presented its own set of challenges, as an alarm system would be necessary to protect the valuable furniture. Then, a stroke of divine intervention occurred. According to Thabazimbi Feed the Poor, God answered their prayers, recognized the pressing needs, and sent Rosond into their lives. Rosond, a drilling and grouting service provider to the mining and exploration sector, generously blessed Thabazimbi Feed

Thanks to generous donations, the children can now enjoy hearty meals.

the Poor with a 4-plate gas burner, a sturdy steel side table, and all the equipment required for safe and efficient gas cooking, including two 48 kg gas bottles, a secure cage, installation services, and a gas compliance certificate. But that's not all; Rosond went above and beyond by delivering durable, long-lasting benches and tables that can comfortably accommodate 8 to 10 children, allowing them to enjoy a clean meal and place their juice next to their plates. Thabazimbi Feed the Poor adds that Rosond also took care of security measures and provided an alarm system to ensure the safety of the premises and the countless guardian angels watching over Berachah. The era of cooking on an open fire is now over! Sitting on the ground is no longer necessary, and sand is not found in the children's food. To top it all off, a generous game farmer added to this blessing by donating kilograms of buffalo mince, easing the cooking process even more. Thanks to these contributions, the kids now savor the most delicious meals, including curry and rice, savory mince, and more. Alongside daily deliveries of eggs, bread, milk, and cake, as well as generous monthly contributions from anonymous companies and individuals, God's special children are now dining like children of the King should.

If you would like to donate to Thabazimbi Feed the Poor, contact 082 893 4208.

Laerskool Thabazimbi se gholf sterre

Thabazimbi - Op Dinsdag 24 Oktober 2023, het Laerskool Thabazimbi aan die jaarlikse Interlaer-gholfkompetisie deelgeneem, en hul A- en B-spanne het as weners uit die stryd getree. Vyf van Laerskool Thabazimbi se leerders is ná die dag uitgenooi om aan die finale Limpopo-proewe op 6 November 2023 by Kameeldoring-gholfklub in Potgietersrus deel te neem. Die trots van die skool, Hendru Gerber, het as die algehele wenner van die dag uitgetree, met Rudo Rheeder in 'n verdienstelike tweedeplek. Lenie Steenkamp het 'n vierde plek in die dogtersafdeling behaal. Hierdie drie leerders sal ook Limpopo met trots by die IPT-toernooi in Johannesburg op die 11de en 12de Desember verteenwoordig. Baie geluk aan Laerskool Thabazimbi se gholfsterre!
