THABAZIMBI EMBRACES ABANDONED BABY GIRL

Thabazimbi – In an emotional discovery that has stirred both heartache and hope within the Thabazimbi community, a newborn baby girl who was abandoned in a veld in Judith Street, was found alive early on Thursday morning, 1 February 2024.

The infant was discarded and left for dead in a red plastic bag with her umbilical cord still attached (and secured with a laundry pin) and was discovered around 07:00.

The shocking find quickly turned into a miraculous tale of survival as local residents, upon realising the baby was still breathing, wasted no time in alerting the authorities and emergency services. Responding with swift compassion, Public Protection Services (PPS) Thabazimbi and Thaba Fire and Rescue personnel ensured the baby was immediately taken to the local state hospital.

There, to the relief of all, the baby was found to be in a surprisingly good state and was subsequently placed in the maternity ward for care. The community's response to the baby's plight has been nothing short of extraordinary.

Petrus van Breda, founder of PPS Thabazimbi, highlighted the outpouring of support, noting that numerous individuals and organisations have donated essential items for the baby, now affectionately named 'Sarah' by the woman who found her. As police investigations continue into this heart-wrenching case, the incident has sparked a broader conversation about the challenges some expectant mothers face.

Most women are ecstatic when they find out that they are going to be a mother. Unfortunately, this exciting time can also be very scary for expecting mothers. Sometimes, women find themselves alone, underaged, ashamed, or without the necessary support structures in place to help them care for their babies. Under difficult circumstances, they might believe they have no alternative but to abandon their babies. Should you be unable to care for your baby, please go to a hospital to give birth. This will not only give your baby a chance at life but will also be beneficial to your health. By using the correct channels, the baby will receive an ID number, which will help with the adoption

process where the mother has 60 days to change her mind. Mothers who abandon their babies without seeking assistance will be charged with concealment of birth, where a DNA test is done to locate the mother who will face criminal charges if caught.

As Sarah begins her journey under the care of loving hands, the hope is that she grows up never having to bear the weight of how her life began, surrounded instead by love and the knowledge that she was, indeed, wanted.

In moments of despair, the community of Thabazimbi has shown that unity, compassion, and action can bring light to the darkest of situations. *May the story of Sarah inspire continued support for vulnerable members of our community and reinforce the message that no one should have to face life's challenges alone.*

If you have any information about the parents, please contact SAPS Thabazimbi on 08600 10111 or sergeant Ndube directly at 071 355 0564.

THABAZIMBI WATER CRISIS WORSENS WITH VANDALISM

Thabazimbi – On Saturday 3 February 2024, the Thabazimbi Local Municipality (TLM) highlighted a pressing issue to its residents, marking yet another chapter in the ongoing water supply saga that plagues areas like Regorogile, Thabazimbi, and Ipelegeng. The relentless challenges with water provision have become a daily burden, seemingly with no resolution in sight. During a routine check by the TLM water services team, a severe setback was discovered at the heart of the water distribution network — the Y-piece. This critical juncture suffered extensive damage due to vandalism, manifesting as a severe leakage with broken locks and covers. It became apparent that the system had been tampered with, an act that not only disrupted water flow but also symbolised a deeper issue.

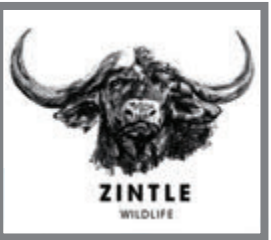

A severe pipe leakage at the Y-piece.

Locks and covers at the Y-piece were broken.

This incident is not a first; the municipality has repeatedly faced acts of vandalism targeting its water infrastructure. These deliberate disruptions not only undermine the community's access to water but also inflict financial strain on residents due to the ensuing repairs and necessary replacements. With the Y-piece now compromised, the municipality faces the familiar task of replacing it again, further complicating the already complex issue of water distribution within the town. This ongoing vandalism not only poses a question of availability — “Who gets water and when?” — but also highlights the counterproductive nature of such acts. Those behind the vandalism, likely driven by a desperate need for water, have inadvertently widened the scope of the crisis, affecting the broader community.

Zintle Wildlife UNVEILS NEW ERA OF ECO-FRIENDLY DEFORESTATION with WUHLF Mulchers

Thabazimbi – In an eye-opening demonstration on their premises, Zintle Wildlife farm in Thabazimbi hosted about 100 local farmers to showcase the power and efficiency of the latest WUHLF Mulchers.

The event, held on Thursday 25 January 2024, focused on the capabilities of the 960-2 and 930 Mulcher models, emphasising their role in sustainable deforestation.

The demonstration aimed to illustrate how these advanced Mulchers outperform traditional methods, offering a more ecologically friendly approach to land clearing. Unlike conventional methods, the WUHLF Mulchers not only clear the land but also contribute to maintaining soil health, an aspect crucial for sustainable farming. Craig Williams, the owner of Zintle Wildlife, shared his experience, “With these new Mulchers, I cleared 180 hectares, witnessing remarkable regrowth. The Mulcher maintains soil moisture effectively. For anyone with substantial farmland, I highly recommend this equipment.” Coert Steenberg, the manager of WUHLF, emphasised the local relevance of their products, “Our Mulchers are manufactured in South Africa, tailored for local conditions. They finely chop trees, creating a protective mulch layer on the ground. This helps retain soil moisture, accelerating grass growth – a significant advantage over traditional debushing methods.” The highlight of the event was the comparison between traditional deforestation methods and the WUHLF Mulching technique – massive differences!

Traditional methods involving bulldozers resulted in piled-up branches and disturbed soil, whereas areas cleared with WUHLF Mulchers showed a layer of mulch that promoted better grass growth due to undisturbed soil.

In conclusion, the demonstration by Zintle Wildlife proved to be a significant step towards modernising agricultural practices, showcasing how advanced technology like WUHLF Mulchers can lead to more productive and environmentally sustainable farming.

Should parents monitor their kids' cellphones?

In today's digital age, children often use cellphones and other devices to communicate and interact online, including playing games with strangers. While some argue monitoring a child's cellphone is a necessary step to protect them from potential dangers, such as inappropriate contact from adults and sexual predators, others view it as an invasion of the child's privacy. What is your opinion on this matter?

Yes. Children should be protected from making poor decisions as they are still in the process of maturing. Exposure to any negative lifestyle at a tender age can jeopardise their future, especially considering the peer pressure they may face. Therefore, it is crucial to guide them appropriately.
William Kutlo

Yes, proper supervision is essential in today's world, as there are insufficient laws and protective measures in place to shield children from the dangers of the internet.

YOUR FRIDAY FUN FACT

Did you know?

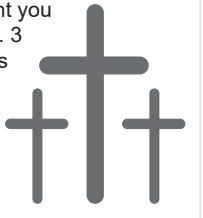

You shed billions of skin cells daily! Hold on to your hats, folks, because your skin is on an epic journey of renewal that's nothing short of a miracle! Every hour, it waves goodbye to a mind-boggling 200 million skin cells. That's right, every single hour! And in the grand finale, over the course of a day, you lose about 5 billion skin cells. To put it into perspective, that's a '5' followed by nine awe-inspiring zeros! Your skin's top layer, the epidermis, is the mastermind behind this spectacular show. It's like a factory where 95% of the cells are hard at work, churning out fresh, new skin cells to replace the old ones. The other 5%, the dedicated artists of the epidermis, are busy giving your skin its unique color through melanin.

HFM groet onderwyslegende na 40 jaar

Thabazimbi – Woensdag, 31 Januarie 2024, het Hoërskool Frikkie Meyer afskeid geneem van 'n ikoon in die onderwyswêreld, Me. Margaret Rose Campbell, na vier dekades van toegewyde diens. In die hartjie van Thabazimbi het die skoolgemeenskap bymekaargekom om eer te betoon aan Me. Campbell, wie se onderwysloopbaan teruggaan tot in die 1980's. Haar reis het begin by Kloof Senior Primary voordat sy op 1 Januarie 1988 haar plek ingeneem het binne die mure van HFM, waar sy 'n onuitwisbare merk gemaak het as deel van die Engelse departement. In 2006 is sy bevorder tot Departementshoof en in 2011 het sy die leisels oorgeneem as Departementele Hoof van Amptelike Tale, insluitend *English Home* en *Additional Languages*. Me. Campbell se toewyding aan onderwys en haar leerders was onwrikbaar. Sy was 'n pilaar van krag en inspirasie, nie net in die klaskamer nie, maar ook binne die gemeenskap van Hoërskool Frikkie Meyer. Haar passie vir leer en onderrig het deur die jare heen onveranderd gebly, selfs te midde van die dinamiese en uitdagende onderwyslandskap. Haar klaskamer was 'n toevlugsoord van ontdekking en inspirasie, waar leerders gevoel het hulle is gewaardeer, gehoor, en bo alles, bemagtig. Me. Campbell het 'n diepe liefde vir leer in haar leerders gekweek, 'n nalatenskap wat veel verder strek as die klaskamer se mure. Sy het nie net die lewens van haar leerders verryk nie, maar was ook 'n mentor en vriendin vir haar kollegas, wat haar wysheid en ervaring met 'n oop hart gedeel het. In 'n era waarin die welstand van onderwysers dikwels onder druk is, het Me. Campbell 'n liggie van hoop en inspirasie vir almal rondom haar gebly. Soos ons koebaaï sê aan Me. Margaret Campbell, onthou ons haar nie net vir haar bydrae tot die HFM-familie en die groter onderwysgemeenskap nie, maar ook vir die lewens wat sy aangeraak het. Haar nalatenskap van passie, toewyding, en liefde vir onderwys sal voortleef in die harte van vele.

The game ended with a challenging scoreline but offered valuable insights for the Rhinos.
