MASSIVE FIRE DEVOURS OVER 4,000 HECTARES

The intense flames spread across the landscape, engulfing everything in its path and leaving a trail of devastation.

Thabazimbi – On Tuesday 17 September 2024, at approximately 14:00, Thaba Fire and Rescue received a distress call from Rhino Mine, requesting assistance with a massive fire that broke out on the mine's property. Within minutes, the fire spread through Rhino Mine grounds, extending towards Leadwood Lodge via Roodedam.

Thaba Fire and Rescue quickly mobilised seven units to the scene, supported by several other teams, including Numzaan Safaris, Wildmed Emergency Services, Amandelbult Complex's Fire and Rescue team, Northam Platinum's Fire and Rescue team, and local farmers who rushed to help contain the flames. Despite their combined efforts, the fire ravaged an estimated 4,000 hectares of land, though authorities are unable to confirm the exact figure.

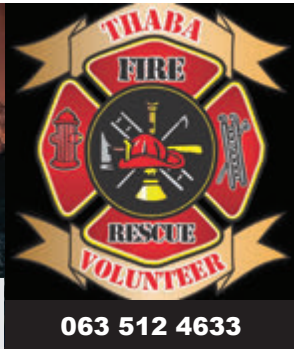

"The cause of the fire is still unknown," said Pierre Loots, director of Thaba Fire and Rescue.

Loots also noted that while the fire was under control by 01:00 on 18 September, strong winds caused it to reignite the following day. Firefighters battled again until 02:00 on 20 September to finally bring the blaze to an end.

Loots commended the coordinated effort of all teams involved, highlighting the crucial role local farmers played in assisting the firefighting teams.

A Thaba Fire and Rescue member assesses the situation, carefully planning the next steps in the fight against the raging fire.

The Myth of the Rife Machine and the Dangers of Pseudoscience

[letter to the editor]

Dear Editor,

It is baffling to see how some people still believe in the supposed healing powers of the Rife machine, a device from the 1930s invented by Royal Raymond Rife that claims to cure ailments like cancer through electromagnetic frequencies. The allure of a simple solution is understandable, but we must address the glaring flaws and dangers of this pseudoscientific device.

The Rife machine supposedly targets diseases by zapping pathogens with specific electromagnetic frequencies. Proponents claim that by tuning the machine to the right frequency, it can destroy bacteria, viruses, and even cancer cells. Its supposed mechanism of action does not align with established biological principles.

If certain frequencies truly held the key to health, then by the same logic, other frequencies could harm us — should we be cautious if someone laughs at a particular pitch or if our favourite song plays in an 'unlucky' frequency? Such ideas are clearly absurd and highlight the flawed thinking behind the Rife machine's claims.

The average range of the Rife machine is 1 to 1,000 Hz, frequencies that are common in everyday life. Our electrical appliances, the Earth's magnetic field, and even our bodies naturally operate within this range. For instance, household power lines run at 50 or 60 Hz, and our hearts beat at roughly 1 Hz.

Listening to music or to someone laughing can also cover the whole range as emitted by the rifle machine. These frequencies are part of normal, safe interactions with our environment. To suggest that these everyday occurrences could be used to treat serious diseases is misleading at best and dangerous at worst.

Health authorities worldwide, including the U.S. FDA, Health Canada, and regulatory bodies across the UK, Australia, and the EU, have consistently warned against the use of the Rife machine. These organisations classify it as unapproved, untested, and illegal to market for medical purposes. They have also noted the potential health risks when individuals opt for such unproven

patients when individuals opt for such improved treatments over established, evidence-based medical care. Skipping conventional treatments in favour of devices like the Rife machine can lead to the worsening of conditions, progression of diseases, and in severe cases, death.

Believing in the Rife machine is not only a waste of money but a dangerous diversion from proven medical treatments. Instead of relying on gadgets that promise miraculous cures without scientific backing, we should trust in methods tested and approved by the scientific community. Always consult with qualified healthcare professionals for evidence-based treatments that have been shown to work.

Let's keep our health grounded in reality, not in the frequencies of wishful thinking.

Sincerely,
A Concerned Citizen

FIVE-YEAR SENTENCE FOR ATTEMPTED RAPE

Thabazimbi – Colonel Malesela Ledwaba reported that a 30-year-old man was sentenced to five years in prison for attempting to rape a 15-year-old girl in Ipelegeng, Thabazimbi, on 10 May 2019. The man, a family friend of the victim, entered the home under the pretence of asking for food. Once inside, he requested a massage, but the situation turned violent when he tried to assault the young girl.

The court heard that the courageous victim fought off the attacker, with the assault coming to an end only when her mother knocked on the door. The man threatened the girl not to report the incident, but after his departure, she bravely told her mother. The police were immediately informed, leading to the swift arrest of the suspect.

Detective sergeant Dennis Modubi of the Family Violence, Child Protection, and Sexual Offences (FCS) Unit in Thabazimbi played a vital role in investigating the case, ensuring the suspect was kept behind bars and successfully opposing bail. His dedicated efforts resulted in the sentencing of the accused by the Thabazimbi Magistrates' Court on Wednesday 18 September 2024.

The provincial commissioner of police in Limpopo, lieutenant general Thembi Hadebe, praised the outcome and highlighted the police's unwavering commitment to combating sexual offenses and safeguarding vulnerable members of society.

Witnesses Set to Testify as Thabazimbi Child Assault Trial Delayed to November

Thabazimbi – The court appearance for the three accused in the Thabazimbi child assault case has faced yet another delay, further frustrating the community.

Ria Oberholzer, Petrus Oelofse, and Jessica Hull, the three accused, appeared before the Thabazimbi Magistrates' Court on Friday, 6 September 2024. The appearance was expected to be the final step before the trial could begin, but the case has been plagued by multiple postponements over the past year and a half. Oelofse faces charges of sexual assault and child neglect, while Oberholzer and Hull are accused of child neglect and assault with intent to cause grievous bodily harm. The charges stem from accusations involving the assault of two young children with a cricket bat.

Despite expectations that the case would move forward, a new obstacle emerged. The accused's legal team underwent changes, with a temporary

assistant replacing the original representative. The defence argued for more time to allow the new lawyer to fully take over the case, leading to yet another postponement. The judge, visibly frustrated with the delays, granted the request but warned that no further postponements would be tolerated once the new representative was in place.

The trial was initially rescheduled for Wednesday 25 September 2024, with the court determined to move the case forward. However, on 25 September, the proceedings focused on trial preparation rather than the trial itself.

The court has now postponed the trial dates to 19 and 20 November 2024, when witnesses will take the stand to testify. The bail for all three accused has been extended until the trial date.

The judge has reaffirmed that, come November, there will be no further delays, and the trial will proceed.

HAVE YOUR SAY

Do you notice a lot of trash being thrown out of windows or dumped in your neighbourhood?

Littering remains a persistent issue in many communities, with plastic bags, cigarette butts, and bottles being common sights. Illegal dumping not only harms the environment but also affects community pride and property values. Have you noticed this problem in your area? Let's work together for cleaner streets!

Yes, we urgently need stricter rules against illegal dumping in Thabazimbi. As a community, we must work together to identify and hold perpetrators accountable. Illegal dumping harms our soil and water resources, with wildlife and animals being the first to suffer. Those responsible should face fines or be required to contribute through community service, helping to build a better future for all of us. **Christel Steenkamp, Thabazimbi**

Yes, in Regorogile, trash is being dumped all over the place. There's even a small corner where people regularly dispose of their waste. The worst part is that an illegal dumping site has been created, where trash is constantly thrown. This not only harms the environment but also attracts dogs, who end up eating from the site and getting sick. The smell from the dumping site is unbearable. Personally, I believe legal action should be taken against anyone caught littering to prevent further damage and protect the health of our community. **Gosiame Molefe, Regorogile**

Faith Triumphs in Trouble

5 Therefore, having been justified by faith, we have peace with God through our Lord Jesus Christ, 2 through whom also we have access by faith into this grace in which we stand, and rejoice in hope of the glory of God. 3 And not only that, but we also glory in tribulations, knowing that tribulation produces perseverance; 4 and perseverance, character; and character, hope. 5 Now hope does not disappoint, because the love of God has been poured out in our hearts by the Holy Spirit who was given to us.

Christ in Our Place

6 For when we were still without strength, in due time Christ died for the ungodly. 7 For scarcely for a righteous man will one die; yet perhaps for a good man someone would even dare to die. 8 But God demonstrates His own love toward us, in that while we were still sinners, Christ died for us.

WARNING: PET SCAMS

MARMOSET MONKEYS

SA – Specialised Security Services alerts the public to a recent scam targeting individuals interested in purchasing marmoset monkeys. This is one of many recent examples of the public being interested in buying exotic pets and not necessarily expecting the hurdles and pitfalls associated with this type of purchase.

MODUS OPERANDI

- Scam offer**
These scammers advertise marmoset monkeys for sale, typically priced at R3,000 each or R5,000 including transportation costs.
- Client interaction**
Our client agreed to pay R5,000 for the monkeys, including transport from Springbok to Vanderbijlpark. They paid a deposit of R2,500.
- Fake verification**
The scammers provided a copy of an ID for verification, which appeared legitimate as it matched the details on Truecaller.

- Unexpected additional costs**
After booking the delivery, the client received an email demanding an additional R15,000 for insurance, supposedly refundable upon delivery. This cost had not been disclosed initially.
- Suspicious details**
The email requesting additional funds lacked professionalism, had no official invoice, no company number and included bank details only in the body of the email. The scammers used the name of a legitimate company, Trans Global.
- Company verification**
Upon contacting Trans Global, our client discovered that the company does not deal with animal transportation. Trans Global was aware of the scammers misusing their name on various occasions in fraudulent transactions.

If you suspect you have encountered this scam or similar fraudulent activity, report it to the relevant authorities immediately to prevent others from falling victim, or contact Mike Bolhuis personally.

Sewer Woes and Water Shortages:

We Plead for Urgent Action

[letter to the editor]

Thabazimbi – We are grappling with a worsening situation as persistent sewer problems and a lack of water in taps continue to disrupt daily life. Overflowing sewage and dry pipes have become a grim reality for weeks, causing distress and raising significant health concerns.

A Cry for Help

In a letter addressed to the municipality, I voiced the frustrations felt by many. “Due to the lack of water in our taps and pipes, the sewer system is overflowing all over town,” I wrote. This has led to unsanitary conditions, with sewage seeping into streets, creating foul odours that fill the air and posing a serious health threat.

Health Risks and Community Impact

We are particularly worried about the health risks that the unsanitary conditions present, especially as the town braces for the upcoming warmer months. Water is essential for hydration, sanitation, and daily living, and the current situation makes it impossible for many households to meet these basic needs.

Despite numerous complaints by residents, there has been no significant response or action from the local authorities to address the crisis. The lack of water in the taps is unacceptable. I urge the Thabazimbi Local Municipality to prioritise resolving the issue and restore a functioning sewer system.

A Call to Action

I am calling on the local municipality and relevant government authorities to take swift action before the situation worsens. The health and well-being of residents must be the primary concern, and ensuring access to clean water and a safe, functioning sewer system is paramount.

Hoërskool Frikkie Meyer Matrieks Vier Hul Groot Aand in Styl

Thabazimbi – Op Vrydag 20 September 2024, het Hoërskool Frikkie Meyer se matrikulante in styl hul laaste skooljaar afgesluit met die pragtige Imperial Soireé. Die gemeenskap het saam met ouers en familie die aankoms van die matrieks met trots aanskou. Die skoolsaal is vir die aand omskep in 'n koninklike omgewing, waar graad 11-leerders hul rolle as gasvrye bedieners met grasia vervul het. Onder leiding van Chrisna Els en Janco Meintjes, saam met die graad 11-ouerskomitee, het die aand soos iets uit 'n sprokiesboek afgespeel.

Verborge drome en diep emosies

Matriekleerder Happy Boiyane het gesê:
“As 'n jong volwassene voel ek redelik voorbereid, maar regtig senuweeagtig oor hoe die werklike wêreld daar buite gaan wees. Ek hoop dat ek my

loopbaan wys gekies het en suksesvol sal wees. Vir volgende jaar hoop ek om toelating tot universiteit te kry en my studies voort te sit om my drome te volg – dalk selfs as model werk, soos ek altyd wou. Aan toekomstige matrieks sê ek: ‘Omhels elke oomblik en maak seker dat jy selfvertroue het met jou keuses.’”
Caylim van Biljon het sy dankbaarheid gedeel:
“Dit was 'n onvergeetlike aand saam met my vriende. Ek is baie dankbaar vir al die onderwysers wat my deur my skooljare ondersteun het. Matriek het in 'n oogwink verbygevlieg, maar die herinneringe is iets wat ek vir altyd sal koester.”
Janelle Erasmus het haar gunsteling-oomblik beskryf:
“My onvergeetlike oomblik was toe die groot deure na die saal oopgemaak is. Dit was toe ek besef het dat hierdie aand die einde van een hoofstuk en die begin van 'n volgende is.”

“Te cool vir school” stylvolle graad 12 manne wat vol selfvertroue en flair hul laaste skooljaar afsluit.

Met die aand wat vol herinneringe en glimlagte afgesluit is, het die matrieks ‘n viering van hul skoolloopbane geniet – ‘n aand van dans, lag, en ‘n blik op die toekoms.
