BETS BEATS BLACK MAMBA

Longer than she is,
but no match for
Bets Joubert's
bravery!

Bets Joubert (83) fearlessly holds up the black mamba by its tail, showcasing its incredible length after single-handedly defeating the deadly snake to protect her dog, Heidi.

VACANCY PAGE 2

Thabazimbi – In a jaw-dropping encounter, 83-year-old Bets Joubert, residing in Tambotie Street, bravely confronted a massive black mamba, measuring longer than her own height, to protect her beloved dog, Heidi.

On Thursday 28 November 2024, while watering her garden, Bets was alerted by Heidi's frantic barking near the garage. Realising something was wrong, she decided to investigate.

"I knew by the sound of her barking something wasn't right," Bets told *Platinum Bushvelder*.

In the garage, she spotted the snake but didn't immediately recognise it as a black mamba. Showing extraordinary courage, Bets grabbed the snake by its tail. When it charged toward her, she let go and allowed it to move further away before grabbing it again. This time, she dragged the snake outside.

Once outside, Bets whipped the snake onto the ground several times until it lay lifeless. Only then did she realise the enormity of her opponent — both in length and danger.

"The snake was much longer than I expected," she recounted, "but there was no time to be afraid."

This 83-year-old woman not only thinks on her feet, her immediate response saved her dog.

All eyes on Thabazimbi

A Municipal By-Election So Hotly Contested That Even the President Graced Us with His Presence

The spotlight is firmly on Thabazimbi as the municipality held its highly anticipated by-election, a contest so intense that it attracted the attention of none other than President Cyril Ramaphosa. Speaking ahead of the municipal by-election, Ramaphosa made it clear why this election is of such significance: “We must fix Thabazimbi, Thabazimbi is broken.”

President Cyril Ramaphosa joined the campaign trail in Thabazimbi.

Thabazimbi is grappling with various challenges, of which an almost constant water supply issue is the worst. People went to the voting stations with high hopes on Wednesday, 4 December. Hopefully the outcome will have far-reaching implications for the region and its governance. The infighting at the municipality, with even employees facing each other from opposite sides of the political fence. As the election unfolded, the Independent Electoral Commission (IEC) was closely monitoring

the process. The voting stations officially closed at 9:00 PM, with counting commencing immediately thereafter at the same venues. Representatives from the political parties and independent candidates present at the counting stations ensured transparency throughout the process. The IEC has confirmed that the final results will be co-signed by these representatives to verify the allocation of seats in the municipal wards. In a further step to maintain transparency, the IEC set up a mini-results operation (ROC) at the Thabazimbi Bioscope Hall, allowing for real-time updates. While the counting is ongoing, the political parties and independent candidates have been given the opportunity to raise objections to the results. Any objections must be submitted in writing to the IEC by no later than 5:00 PM on Friday, 6 December, to the following email address: objections@elections.org.za.

Leon van der Walt, recovering from the attack, continues to fight for justice.

Thabazimbi Family Awaits Justice as Suspect's Bail Extended

Thabazimbi – The Van Der Walt family continues their quest for justice as the court case involving André Hoffman, the suspect accused of assaulting 32-year-old Leon van der Walt, progresses. According to the court documents, on Thursday, 28 November 2024, Hoffman appeared before the Thabazimbi Magistrate's Court. During the proceedings, the judge ruled to extend Hoffman's bail, initially set at R500, until 21 January 2025. Hoffman paid the bail and was released. He faces charges of assault with intent to cause grievous bodily harm (GBH).

The case stems from a brutal attack that took place on 24 September 2024 at a restaurant in Thabazimbi, where Leon worked as a waiter. The attack left Leon unconscious and severely injured, resulting in ongoing medical challenges, including debilitating headaches and brain swelling. The Van Der Walt family remains determined to see justice served. Leon's wife, Monique, expressed gratitude for the community's continued support, which has helped the family navigate the legal process and Leon's difficult recovery.

“We're still holding onto hope,” Monique said, as the family prepares for the next court date.

If you would like to support the Van Der Walt family with donations toward their mounting medical expenses, please contact Monique at 072 746 3282.

JOHN 8 VERSE 7-12

7 So when they continued asking Him, He raised Himself up and said to them, "He who is without sin among you, let him throw a stone at her first." 8 And again He stooped down and wrote on the ground. 9 Then those who heard it, being convicted by their conscience, went out one by one, beginning with the oldest even to the last. And Jesus was left alone, and the woman standing in the midst. 10 When Jesus had raised Himself up and saw no one but the woman, He said to her, "Woman, where are those accusers of yours? Has no one condemned you?" 11 She said, "No one, Lord." And Jesus said to her, "Neither do I condemn you; go and sin no more." 12 Then Jesus spoke to them again, saying, "I am the light of the world. He who follows Me shall not walk in darkness, but have the light of life."

HAVE YOUR SAY

Do you think time travel will ever be possible?

Time travel has fascinated humanity for centuries, sparking endless debates in science and fiction. While some physicists explore the theoretical possibilities, practical time travel remains elusive. Could breakthroughs in technology one day unlock this mystery, or is it destined to remain a dream? What do you think?

No, the past is just that — the past — and cannot be relived. As for the future, it hasn't happened yet, so who or what could you possibly encounter there? You won't meet people who haven't been born yet, and the future remains an unknown. Linda Richards, Thabazimbi

Yes, time travel is theoretically intriguing and, while speculative, has a basis in science. Einstein's Theory of General Relativity suggests that gravity can warp spacetime, potentially creating closed time-like curves. Concepts like wormholes, quantum mechanics, and black holes also hint at possible pathways for time travel. However, significant obstacles remain, including immense energy requirements, stability challenges, and unresolved causality paradoxes, all of which must be addressed before it becomes a practical reality. Gerald Thobakgale, Regorogile

POLL

Would you go on a trip to space if given the chance?

Would you blast off to space? If given the chance, would you strap in for a trip to space? With the rise of private companies like SpaceX and Blue Origin, space tourism is no longer a sci-fi dream. The first civilian crew orbited Earth in 2021, and suborbital trips lasting minutes are already a reality. While the price tag currently hovers in the hundreds of thousands, experts predict costs could drop drastically within a decade. So, would you float in zero gravity, or are you keeping your feet planted on Earth? Here's how you can participate. Email us at news@platinumbushvelder.co.za or WhatsApp your response to 081 579 7000.

Include the following:

- Your answer: Yes or No
- Why? We want to hear from you!
- A recent photo – We'd love to publish your pic alongside your answer!
- Your town/city
- Deadline – Be sure to send your response before 12:00 on Monday, 9 December 2024.

Vote results: The outcome of the poll will be featured in our next issue. Be a part of our community's story! P.S.: Don't forget, you can also voice your opinion on our Facebook post about this topic. Join the conversation!

Did you know?

Did you know that the chainsaw was originally invented for childbirth? In 1780, Scottish doctor John Aitken created the first handheld chainsaw to assist with a surgical procedure called symphysiotomy, which helped widen the birth canal during difficult labour. Far from today's tree-cutting tool, Aitken's chainsaw was small, hand-operated, and designed to make surgeries safer. It wasn't until the 20th century that chainsaws were adapted for logging and forestry. Talk about an unexpected transformation! The chainsaw has certainly come a long way from its medical beginnings!

School demolition marks end of 10-year dispute

Northam – A property dispute in Northam has left the local community in outrage and searching for answers. *Platinum Bushvelder* set out to investigate, reaching out to Hendrik Malan, the director of Northam Investments Pty Ltd., for clarification. According to Mr. Malan, Northam Investments is the registered owner of several properties in Northam, including the one sold to the New Covenant Fellowship International

The school building in its original state, before the demolition began, was a place of learning.

Ltd. on 8 October 2014. According to Mr. Malan, the property was to be used for a school, but the New Covenant Fellowship School failed to fulfil its payment obligations. After years of unfulfilled promises, the agreement was cancelled.

A pastor initially represented the school, but following his passing, his wife, took over. Despite the cancellation, the pastor's wife denied the termination, claiming significant payments had

been made to Northam Investments. Mr. Malan has disputed this, stating that these claims were untrue. Northam Investments found it increasingly difficult to maintain ownership of a non-income-generating property, leading to years of legal proceedings. Meanwhile, the New Covenant Fellowship School continued to operate. After a lengthy court battle, the High Court of Limpopo ruled in favour of Northam Investments, ordering the school to vacate the property by 31 October 2024. Despite the ruling, Northam Investments allowed the school additional time to accommodate students' exams.

The situation took a turn when the school claimed to have invested R9.6 million in renovations, arguing that this amount should be subtracted from their outstanding debt. Northam Investments rejected this claim, and in response, the school began demolishing the "renovations", as seen in recent photos.

"We even filed a case at the Northam police station, reporting malicious damage to property, contempt of the High Court of Limpopo, and the defrauding of learners. Unfortunately, no action has been taken by the police so far," added Mr. Malan. Community members are in disbelief, especially as

parents and learners were not informed about the vacate date or the demolition. One parent expressed concern over

The aftermath of the demolition. The school building is now reduced to rubble.

Rugby uitblinkers in die kollig

Thabazimbi – Hoërskool Frikkie Meyer het Vrydag, 29 November 2024, 'n besondere mylpaal gevier deur hul rugby afrigters wat hul Vlak 2-afrigtingskurse met sukses voltooi het, in die kollig te plaas. Baie geluk!

the lack of communication from the school regarding these developments. Furthermore, the extent of damage to the property owned by Northam Investments remains unclear, adding to the uncertainty and frustration surrounding the situation. *Platinum Bushvelder* attempted to contact the New Covenant Fellowship School multiple times, and eventually reached the pastor's wife, who declined to provide any information, citing the matter as a legal issue. The community is left in a difficult position, with many unanswered questions about the future of the property and the impact on the students who were affected by the disruption.

Stevens Mining and Engineering Suppliers: a new dawn for local business

Steven Motsomane, director of Stevens Mining and Engineering Suppliers, proud and ready to lead his growing business.

From left: Hytec SA technical sales representative Abrie van der Merwe, Hytec SA branch manager Louise Kleingeld, Stevens Mining and Engineering Suppliers director Steven Motsomane, Hytec SA general manager Freddie Kühn, Stevens Mining administrator Roshinah Moagi, Stevens Mining data capturer Johannes Motsomane, Hytec SA regional manager Pieter Boshoff, and Hytec SA technical sales representative Bernie Nel.

Steven Motsomane, director of Stevens Mining and Engineering Suppliers, and Freddie Kühn, general manager of Hytec SA, cutting the ribbon to mark the official opening of the new hose and fitting container.

Thabazimbi – Stevens Mining and Engineering Suppliers marked a significant milestone with a ribbon-cutting ceremony on Wednesday 27 November 2024, celebrating the handover of a hose and fitting container generously donated by Hytec SA. This container forms a pivotal part of Stevens Mining's hydraulic and pneumatic services, expanding its scope and capabilities. Located at the corner of Lood and Warmbad Road, Stevens Mining and Engineering Suppliers is now officially open to serve the Thabazimbi community, with its formal launch scheduled for a later date. This initiative not only highlights a growing local business but also underscores the value of strategic partnerships in uplifting small and medium-sized enterprises (SMMEs).

Words from Steven Motsomane

Steven Motsomane expressed heartfelt gratitude during his speech, reflecting on the challenges he faced while building his business and the crucial support provided by Hytec SA. "It has been a long journey, but with the help from Hytec SA, I stand here today. This donation is not just about equipment; it's about building a sustainable relationship, growing together, and making a difference in our struggling community. My dream is to expand, employ more people, and provide learning opportunities for those who lack the necessary skills but are eager to work." Steven highlighted the importance of mentorship, resilience, and continuous learning, dedicating his success to the collective effort of his team and the unwavering support from Hytec SA.

Vision from Hytec SA

Freddie Kühn, representing Hytec SA, shared his perspective on the partnership. "Moments like these demonstrate the power of meaningful corporate social investment. Our goal is not just to provide donations but to build relationships that empower communities. Stevens Mining is an example of potential and hard work coming together. This is our contribution to help you grow, and we look forward to seeing your business flourish." Freddie emphasised the importance of quality, professionalism, and community engagement, urging Stevens Mining to stay grounded, focused, and committed to growth.

Steven Motsomane, director of Stevens Mining and Engineering Suppliers, and Freddie Kühn, general manager of Hytec South Africa, sealing their partnership with a handshake.

Stevens Mining offers a wide range of services, including:

- Steelworks, Construction, and House Maintenance
- Hydraulic and Pneumatic Solutions
- Power Transmission (Pulleys, Taperlocks, V Belts, and more)
- Filtration and Lubrication
- Valve, Pump, and Bearing Services

Operating 24/7, the business is dedicated to meeting the engineering and mining needs of Thabazimbi and surrounding areas.

A Bright Future Ahead
As the ceremony concluded, it became clear that this was more than just a handover — it was the beginning of a promising journey for Stevens Mining and Engineering Suppliers. With the support of Hytec SA, the business is well-positioned to create jobs, uplift the local community, and establish itself as a trusted name in the industry.

So, if you're in the area, make a turn at Stevens Mining and Engineering Suppliers, where innovation meets opportunity, and success is built on a foundation of partnership and hard work.
